

New Source Review newspaper advertisements for construction permit applications, December 29, 2016. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: December 28, 2016, or December 29, 2016. Public notices are generally published every week. The previous publication of public notices was December 22, 2016.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-03-09-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mrs. Michelle W. Owenby, Director, Division of Air Pollution Control, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, 15th Floor, Nashville, Tennessee 37243 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Any individuals with disabilities who wish to participate in these proceedings or to review these filings should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such initial contact may be in person, by writing, telephone, or other means, and should be made no less than ten (10) days prior to the hearing, or the date such party intends to review such filings, to allow time to provide such aid or service. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 2nd Floor, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, Nashville, TN 37243, (866) 253-5827 (toll free) or (615) 532-0200. Hearing impaired callers may use the Tennessee Relay Service (1-800-848-0298).

The applicant is The Praxis Company, LLC with a mailing address of 435 Industrial Road, Savannah, TN 38372. They seek to obtain an air contaminant permit (Division identification number 36-0074-00/972254) for modification of an operating permit for a Bath Module Manufacturing Operation consisting of applying polyester resins and gel coat to molds for bath fixtures using Fluid Impingement Technology (FIT) applicator guns. The facility is located at 435 Industrial Road, Savannah, TN 38372. Exhaust filters are used for pollution control equipment. There would be no physical construction. Regulated air contaminants would be emitted by this source. Modification consists of removing operating permit conditions subsumed by requirements of 40 CFR 63 Subpart WWW. Mr. R. Benjamin is the assigned Division person.

For the Hardin County "Courier" – publish once on Thursday, December 29, 2016.

The applicant is Interlink Communication Partners, LLC with a mailing address of 6399 South Fiddler's Green Circle, Suite 600, Greenwood Village, CO 80111. They seek to obtain air contaminant permit(s) (Division identification number(s): 39-0093-01/972376P) for installation of a new 50 KW diesel-fired emergency generator, the facility is located on 305 Timberlake Wildersville Rd, Lexington, Tennessee 38351. The requested operation is for the approval to emit regulated air pollutants. Mr. Jim A. Attar is the assigned Division person.

For the Henderson County "Lexington -Progress"-- publish once on Wednesday, December 28, 2016.

The applicant is Bristol Metals, LLC with a mailing address of 390 Bristol Metals Road, Bristol, TN 37620. They seek to obtain an air contaminant permit (Division identification number: 82-0032-02/72353) for the modification of a source consisting of Three (3) Steel Pickling Tanks located at the 390 Bristol Metals Road, Bristol, TN 37620. The source at current is made up of two (2) 10,000 gallon tanks and one (1) 3,400 gallon tank used for stainless steel acid pickling. The proposed modification would replace the 3,400 gallon tank with one (1) 11,000 gallon tank. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. B. Hall is the assigned Division person.

For the Sullivan County "Bristol Herald Courier"-- publish once on Thursday, December 29, 2016.
